aware 365

active workplace safety

who we are

aware365 is an experienced team of OH&S consultants with a practical background in the application of workplace safety compliance

aware365 is positioned to provide services to all levels of industry. 20+ years of experience in the industrial and construction sectors has given us a unique skill set in the field of workplace safety. We act as consultants, project managers and trainers and assessors as we guide and help our clients implement innovative strategies to control and improve workplace safety awareness and performance across their business sectors.

Put simply, we offer reliable and efficient WH&S services to all Tasmanian businesses. We travel throughout the state servicing businesses from Huonville in the south through to Smithton in the north.

Our clients include:

Toolbox Meetings

Electrical Testing and Tagging

UNDERSTANDING:

aware365 benchmarks all advice and direction by undertaking careful research and making educated choices based on best industry practice. At aware365 our WH&S team provide transparent advice and always work towards achieving the most effective and long lasting safety control measures. aware365 understands the complexity and competitive nature of business and strives to be flexible and cost effective in order to meet and exceed our clients' highest expectations and conditions.

RISK MANAGEMENT

Over the past 20 years the team at aware365 has gained invaluable experience and knowledge in the arena of risk management in the construction and industrial sectors. aware365 delivers current and accountable risk management practice on a daily basis, as an integrated part of the ongoing obligation we have in our role as specialist consultant to our clients and their workforces.

DOCUMENTATION

As with any new product or service, the success of the investment to the client is only as good as the capacity of the clients' people to operate the product or system efficiently and safely. aware365 offers a documentation service in the form of policies and procedures (including safe operating procedures and safe work method statements) to our clients, to ensure that their investment in safety is implicitly understood and effectively used by the clients' personnel.

INFORMATION MANAGEMENT

As a basic service, aware365 can collect and maintain essential compliance data for the management of skills matrices with automated reminders, to ensure our clients' training and assessment skills do not lapse. Our system ensures consistent compliance with WH&S policies and procedures for our client specific needs.

TRAINING

aware365 offers recognised training in the areas of Crane Operations, Forklift Operations, Scaffolding, Slings and Rigging, Boom Type Elevated Work Platform, Height Safety Operations, Height Safety Inspector, Confined Space Supervisor, Confined Space Operations, Self Contained Breathing Apparatus and Vertical and Confined Space Rescue. aware365 also offers generic workplace inductions as well as a range of safety related short courses such as manual handling, asbestos awareness and electrical safety.

ELECTRICAL TESTING and TAGGING

aware365 offers a reliable, periodic electrical testing and tagging service to our clients based on their specific workplace requirements.

INSPECTIONS and AUDITS

aware365 offers a wide range of inspection and auditing services based on the needs of our clients. Our audits are benchmarked against recognised industry guidelines and recommended practice. When you choose aware365 to inspect or audit your workplace, you will rest assured that we will provide you with a consultant that understands your industry and can review the work practises contextually to ensure the process and documentation is in line with the task.

why choose aware365

aware365 is a WH&S consultancy that not only offers the traditional services of a health and safety consultant but, more importantly, bridges the gaps that exist in understanding the physical and technical requirements of our clientele.

We understand that there are many choices when searching for WH&S consultants.

What sets aware365 apart is:

The industry experience of our consultants, who come from a trade-based background and have completed 10+ years on the "tools"

We are specialists in defined high risk tasks

In the past 5 years alone our consultants have trained more than 5000 people in height safety, confined space operations and rescue operations

We have a team of flexible and ready-to-go consultants, enabling us to meet the tightest deadlines

We have an established reputation as an industry leader, and work for small and large companies as well as government agencies

We are continually reinvesting in updating and improving the skills of our consultants

Our workplace safety advice and services are not driven by product sales

value

We offer competitive rates for all our services, and we value and reward long term relationships with cost effective solutions.

agility

We have the capacity to bring projects forward quickly and resolve any issues in a timely manner due to our flexibility and adaptability.

focus

Our core business is working in high risk environments. The focus on safety is a quality well established in our organisation.

reliability

Our reliability is the keystone to our longevity in the industry. Many of our clients are repeat clients directly due to the quality and reliability of our service.

dedicated account management

With aware365 it's simple - you will have a direct line to the owners of the business.

flexibility

We understand our clients' constraints and time frames. Through careful planning and appropriate allocation of our highly skilled people, we execute projects in an efficient and timely manner.
